

MK ART CLUBS

*Creative Enrichment
For Schools*

CREATIVE ENRICHMENT PROGRAMMES

Give your pupils the opportunity to explore their creativity with our engaging, hands-on enrichment programmes, delivered over multiple weeks at a consistent time each week, during or after school hours.

Our sessions provide a fun, structured and inspiring creative experience, introducing children to different artistic techniques while encouraging creativity, confidence, collaboration and self-expression.

Programmes typically run for 6 weeks, with flexible options to condense into 4 weeks or extend up to 10 weeks depending on your timetable. We provide a week-by-week plan outlining what pupils will create each session.

From designing T-shirts, mugs and hats to creating sculptures, comics and stop-motion animations, pupils can explore different creative disciplines and take home artwork they can be proud of.

Every programme is delivered by a DBS-certified professional artist, with all materials provided. Schools simply provide a suitable classroom and we take care of the rest.

Programmes can be delivered during or after school hours, with schools free to choose a regular day and time that works best for their timetable, subject to availability.

- **1 hour per session, 1 session per week**
- **Up to 20 students per session**
- **All materials provided**
- **From £140 per session**

SKETCHING

Generating Ideas | £140 per session | Up to 20 students per session

This course is designed to build confidence and imagination through drawing and mixed media. Each week introduces a new creative challenge, from fast-paced drawing exercises and badge making to mug decoration and wearable art. Students will work across a variety of surfaces using multiple drawing techniques while developing their own artistic style. This course encourages experimentation, self-expression and creative thinking.

CUBE COMICS

*A New Way To Tell Stories | **£140 per session** | Up to 20 students per session*

Create an exciting cube comic adventure on specially designed card templates before folding it into unique 3D cube comic. Student will develop original ideas or choose from guided prompts while building their storytelling and illustration skills. By the end of the programme, each child will have created one or multiple Cube Comics, each telling its own unique adventure that can be read simply by turning the cube.

SCULPTING

*Build A Custom Character | **£150 per session** | Up to 20 students per session*

This course focuses on character and creature creation using clay and other sculpting materials. Students will explore shape, texture, facial features, and form while developing their own imaginative characters and creatures. Throughout the programme, students will gradually build confidence by first modifying prepared base sculpts before progressing towards creating an original sculpture from scratch.

MODEL MAKING

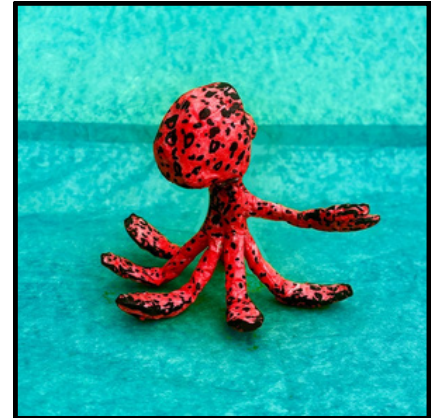

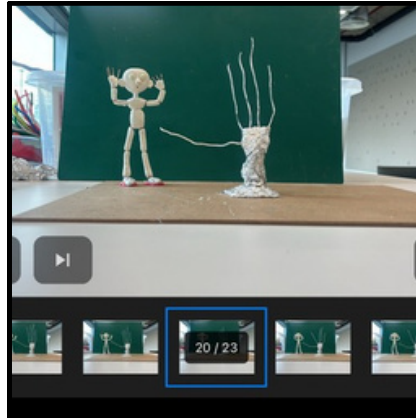

*Build A Woodland Home | **£160 per session** | Up to 20 students per session*

Students will design and build their own miniature environment. Using cardboard, clay, wire, paint and other materials, they will create a detailed and vibrant scene. This could take the form of a treehouse, a street of houses or an alien compound on a distant planet. Once the model is complete, students will bring their scene to life by adding small fairy lights in and around the structure.

STOP MOTION ANIMATION

Set Design & Filmmaking | £170 per session | Up to 20 students per session

Students will work in small groups to create an animated short film. They will build a set, create characters and props before how to animating frame by frame using stop motion techniques. Students will also explore sound design and use editing software to bring their film to life. The course encourages teamwork, planning, and collaboration, with students taking on different production roles based on their individual strengths.

WORKSHOPS ON DEMAND

If you would prefer to book MK Art Clubs for a one-off session during or after school hours, we offer a range of creative workshops tailored to all age groups and abilities. We have delivered workshops in schools, colleges, and universities across the UK, including sessions at prestigious institutions such as Oxford University.

Our workshops are ideal for art week, enrichment days and end-of-term celebrations. Popular workshops include Clay Sculpting, where children can sculpt expressive portraits, create unique Pokemons characters and build miniature worlds. Other workshops like T-Shirt Illustration and hat decoration allow pupils to personalise their own wearable artwork which they can take home.

Sessions are typically one hour long, though we can easily extend or condense the duration to suit your specific schedule. Whether you're looking for a single workshop or a full day of rotating sessions, we offer flexible options that fit around your timetable.

*Standard pricing covers a single session for groups of up to 20 students.
For larger groups, please contact us via email for a personalised quote tailored to your needs.*

- ***From £200 for a standard 1 hour session***
- ***All art materials provided***
